 Leah Struck, Foster Grandparent Program Manager
 Raquel Padia, Foster Grandparent Program Coordinator
 Tyus Bloom, Access to Technology Program Coordinator
 Bernard Jackson, Transitional Support Advisor

Corpsmembers/Students: Ezekiel Thomas

1. WELCOME AND CALL TO ORDER

Shawn Riggins, LCC Director, called the meeting to order at 12:05 p.m.

2. ROLL CALL

Roll was called.

3. APPROVAL OF MINUTES

The Advisory Board approved the minutes for February 19, 2025, and May 21, 2025.

Motion By: L. Martinez

Second by: L. Nikkel

Ayes: 4

Nays: None heard

Abstain: 1

4. STERILE PROCESSING TECH CERTIFICATION TRAINING

Shawn Riggins, LCC Director, provided an overview of LCC's Processing Tech Certification Training. Riggins explained that the DOL/YouthBuild grant primarily supports construction training programs. Recently, DOL expanded the scope to include a Construction Plus component, which includes additional training opportunities for young adults. Approximately six years ago, LCC recognized the need to explore training opportunities in the medical field. LCC initially considered Certified Nursing Assistant (CNA) training. At that time, EOC's HR Director,

who had recently worked at a local hospital, suggested exploring sterile processing as a training focus. Sterile processing involves the cleaning and sterilization of medical equipment prior to use in procedures. LCC evaluated this option, incorporated it into the program's DOL/YouthBuild grant application, and it has since proven to be highly successful. Riggins then introduced Caroline Taito, YouthBuild Program Manager. Taito explained that the Construction Plus program was included in the 2017-2020 DOL grant. However, its initial implementation was affected by the COVID-19 pandemic, which presented several challenges. In the subsequent application submitted in 2023, despite ongoing difficulties related to COVID-19, LCC successfully placed a number of students at Valley Children's Hospital, where they are currently employed. Additionally, LCC was awarded DOL funding for the 2023-2026 grant period and continues to incorporate sterile processing technician training into the program, each year the program evolves with more students being interested.

Taito then introduced Ezekiel Thomas, LCC Corpsmember, and highlighted that Ezekiel has been enrolled in the YouthBuild construction program for a year and a half, has earned a high school diploma, earned several AmeriCorps education awards, certificates in the fire industry, completed the 8-12 week classroom component of the sterile processing technician certification program, and has begun the sterile processing technician 400-hour paid internship at Valley Children's Hospital.

Thomas shared his experience and hopes that all team members will be hired. He provided a detailed overview of the equipment sterilization process, noting that the most physically demanding aspect is typically working in the decontamination area, as it requires standing for extended periods. This can become more challenging when performed on multiple consecutive days. He also described the "Indo" process, which involves sterilizing instruments used internally on patients, such as cameras and other devices. Due to the nature of these instruments, this part of the process can be particularly intensive. Thomas also expressed appreciation for the opportunity to participate in this program and indicated that he interviewed for a position at Valley Children's Hospital recently.

Taito stated that the goal is to initially interview for a per diem position with full time hours, followed by applying for and interviewing for a full-time position that includes benefits.

Thomas also shared that he was selected to represent LCC at the Conference of Young Leaders in Washington, D.C. He noted that he met participants from across the country, learned about their cultures, and had the opportunity to meet elected officials and visit important sites in the city.

5. PROGRAM UPDATES

A. Work Training Projects

A detailed list of work training projects was distributed at the meeting with the Advisory Board agenda packet. Several projects were highlighted. Shawn Riggins provided a brief update on LCC's activities/events since the last Advisory Board meeting, as follows:

- Ken McCoy, Counselor/Registrar at YCSC, reported that the 2025-2026 school year has begun and is currently in its second week. McCoy indicated that there are currently 80 classroom-based students enrolled, along with 20 students in the independent study program, which is now operating with a waiting list. The enrollment goal for the classroom-based program is 120 students. The staff is planning a December and June graduation. The

community action project is scheduled for October 31st, Safe Night Out Halloween event. Additionally, McCoy mentioned that this year's seniors are referred to as "Senior Leader", reflecting their expected leadership roles.

- Tracy Pierce, LCC Recycling Program Manager, provided an update on the recycling program. Pierce reported that all recycling supervisors have started training at the Friant Buyback Center, and the first Fresno State football game is scheduled for August 30th. As of July 2025, over 17,100 electronic waste items, including computers, laptops, and monitors, have been collected, reflecting an increase in e-waste recovery. Staff are currently developing a schedule for the upcoming night shift, which is expected to begin in September. Additionally, efforts are ongoing to secure a secondary buyback site in Fowler, CA, as well as within the Fresno area. Pierce also mentioned that recycling efforts continue at special events, with recent activities including the Shakira concert at Valley Children's Stadium and events at the Save Mart Center.
- Bernard Jackson, LCC Transitional Support Advisor, reported that education is a required component of the work training program. All high school graduates are required to enroll in postsecondary education; currently, 18 corpsmembers have registered for classes at Fresno City College. Jackson stated that, as a result of this year's driver's training, two corpsmembers successfully passed the driver's license test and obtained their driving permits. Additionally, one corpsmember is scheduled to take the driver's test and will be joining the Fresno WIB Forestry Corps training program, this will be LCC's first corpsmember who joins the forestry corps.
- Leah Struck, Foster Grandparent Program Manager, explained that there are two programs available for seniors. The first is the Foster Grandparent Volunteers program, with Raquel Padia serving as the coordinator. The second is the Access to Technology program, which focuses on assisting seniors with technology skills, with Tyus Bloom as the coordinator. Bloom explained that the staff works with seniors aged 60 and older teaching them computer literacy. The program is expected to serve 1,200 seniors this year, with 430 individuals served to date. The second component of the program targets adults aged 18 to 59, with a total of 306 participants to be served over two years in the communities of Orange Cove, Parlier, Sanger, Huron, San Joaquin, and Mendota.

Padia explained that the Foster Grandparent Senior Volunteer Program partners with individuals aged 55 and older. These volunteers are assigned to various locations, including Head Start Centers, the Boys and Girls Club, and YouthBuild Charter School of California (YCSC). Gramma Lily and Gramma Lottie are currently placed at the YCSC/LCC site. The foster grandparent volunteers provide social and emotional support to the children and young adults. This year, the assignment plans have been successfully executed, with over 200 plans completed, reflecting a positive reporting outcome. These plans involve foster grandparents working directly with children. Currently, more than 60 grandparents are assigned to over twenty sites across Fresno County and the City of Fresno. Currently FGP is recruiting an additional 40 volunteers for Fresno and Madera County.

Struck noted that there is currently considerable activity regarding AmeriCorps in Washington, D.C. At present, the program is operating normally since the application for 2024 has been submitted and funding has been allocated. However, AmeriCorps is not

included in the federal budget for October. The staff remains hopeful that it will be added as a line item in the upcoming budget. If AmeriCorps is not included, it could have a significant impact on seniors, potentially leading to a lack of assignments and affecting their income. Additionally, Struck mentioned that Gramma Mary Simmons was recognized for her twenty-five years of dedicated service at Martin Luther King Elementary School. She is currently 94 years old.

- Caroline Taito, YouthBuild Program Manager, provided an update on the YouthBuild AmeriCorps and YouthBuild/DOL construction programs. She reported that the YB/DOL program is in the process of transitioning the remaining enrolled corpsmembers. Staff are developing transition plans, assisting with post-secondary enrollment, and working on job placement opportunities, as the current grant is scheduled to conclude on September 30, 2025. Some corpsmembers have already secured employment. There is indication that another round of funding may be available; however, no specific application deadline has been announced at this time. Additionally, Taito mentioned that she spoke with an alumnus working with the City of Fresno, who encouraged corpsmembers to apply, as the city is hiring for landscaping positions within his department.

Taito reported that the YouthBuild AmeriCorps (YB/AMC) 2024-2025 program is currently at full enrollment. Additionally, the 2023-2024 program year is in the third year of the existing contract period. Taito also mentioned that there are no additional grant opportunities available for YouthBuild AmeriCorps at this time but will inquire about the possibility of future funding options next year.

- Elisa Sgambellone, LCC Assistant Director, announced that for the first time in YCSC's history, four Master of Social Work interns will be serving at YCSC. This is a significant milestone, as it ensures coverage throughout all days of the week. We are pleased to welcome these mental health professionals to support our wellness center. Dan Espinoza will supervise the interns and provide assistance to YCSC students as needed, offering a male perspective to complement the team, as all the interns are female.
- Riggins stated that a fatherhood grant is issued approximately every five years. Typically, the funding source allocates a period of two to three months for the grant application process. However, this year's turnaround time was only two weeks. Despite the limited timeframe, the grant application was submitted on schedule. LCC previously operated this grant, serving nearly 1,400 fathers. We look forward to a favorable outcome from this grant application.

Riggins reported that LCC had the opportunity to work with the San Joaquin River Parkway and Conservation Trust. Riggins then introduced Sharon Weaver, who provided a detailed update on the project's progress. Weaver explained that the project primarily focuses on habitat restoration at the Fresno River West property, emphasizing habitat enhancement efforts. She noted that, unfortunately, a fire ignited on a windy morning, resulting in the burning of several acres of the project site. However, the team assisted with the installation of new irrigation lines, completed necessary repairs, and restored operations promptly.

Riggins provided an update on the state's Nature-Based Solutions initiative, including ongoing recruitment for the Program Manager and Program Coordinator positions. Additionally, application for the project work will be submitted once the positions are filled.

Riggins reported that the Fresno WIB participants, Cohort #12, will begin classroom and physical training in September at LCC. The group includes individuals aged 18 to 60 and have been recruited and selected by WIB. Additionally, this marks the first time a LCC corpsmember will be participating in the WIB's forestry training.

B. Corpsmember Development

Riggins reported that in late September and early October, approximately 18 corpsmembers will participate in training sessions conducted in collaboration with CAL FIRE and the Local Conservation Corps Foundation. During these sessions, they will obtain S12 chainsaw certification along with other relevant certifications. This training, which was also offered last year, is designed to prepare participants for potential employment with CalFire or other public lands agencies.

6. OTHER BUSINESS

A discussion took place regarding the potential to conduct these meetings virtually, considering budget constraints and the current unavailability of providing lunch. It was agreed that the meetings will continue as in-person sessions and will be designated as brown bag meetings.

Next meeting is scheduled for November 19, 2025.

7. PUBLIC COMMENTS

Sherry Neil, EOC Program Officer, announced that the new Chief Executive Officer, Steven Lewis, will be starting on Monday, August 25th. A private meet-and-greet for the board and elected officials is scheduled for Tuesday, August 26th at 10:30 a.m., followed by a press conference at 11:30 a.m. which will kick-off the public meet and greet, everyone is welcome to come and meet our new CEO and commemorate 60 years of Community Action.

8. ADJOURNMENT

Meeting adjourned at 12:50 p.m.

Respectfully Submitted,

Shawn Riggins, LCC Director
Fresno EOC Local Conservation Corps

LOCAL CONSERVATION CORPS ADVISORY BOARD

Date: February 18, 2026	Program: Local Conservation Corps
Agenda Item: 7	Director: Patrick Turner
Subject: Harlan Young, Nature Based Solutions (NBS) Program Manager	Officer: Sherry Neil

Recommended Action

The information presented below is intended to keep the Advisory Board apprised on the Local Conservation Corps Program.

Background

On November 17, 2025, interviews were conducted for the position of Nature-Based Solutions Program Manager. The interview panel included LCC Director Shawn Riggins, LCC Assistant Director Elisa Sgambellone, and Recycling Manager Tracy Pierce. One candidate was absent for their scheduled interview and did not provide prior notice to the panel.

Harlan Young was identified as the most qualified candidate for the position, demonstrating relevant skills and experience. He holds a Bachelor of Science degree in Community Forestry from Humboldt University and a Master's degree. The position requires developing a public lands curriculum to support job placement for LCC corpsmembers with local public land agencies, as well as expanding Fee-for-Service opportunities. Additionally, Mr. Young is a certified arborist.

LOCAL CONSERVATION CORPS ADVISORY BOARD

Date: February 18, 2026	Program: Local Conservation Corps
Agenda Item #: 8	Director: Patrick Turner
Subject: Program Updates	Officer: Sherry Neil

Recommended Action

The information presented is intended to keep the Advisory Board apprised of program activity.

Below, please find a glossary of the PRC Codes for Work Training Projects.

CALIFORNIA PUBLIC RESOURCES CODE:

PRC § 14300. Young adults participating in the corps program shall generally be engaged in projects which do the following:

- A. Preserve, maintain, and enhance environmentally important lands and waters.
- B. Accomplish useful and needed public works projects in both urban and rural areas.
- C. Conserve, maintain, improve, and develop natural resources in both urban and rural areas.
- D. Provide opportunities for public use of, or education in, the areas, projects, and resources described in subdivisions (a), (b), and (c).
- E. Assist in emergency operations, such as natural disaster relief and the rescue of lost and injured persons.
- F. Assist in fire prevention and suppression.
- G. Directly contribute to the conservation of energy.
- H. Contribute toward making public facilities accessible to persons with disabilities.
- I. Assist departments within the Resources Agency in developing, rehabilitating, and restoring parklands, recreational facilities, and historical resources; restoring salmon and steelhead spawning, nursery, and rearing habitat; restoring and preserving wildlife habitat; and enhancing reforestation in both urban and rural areas.

B. Corpsmember Development Report

Background: Corpsmembers are required to participate in continuing education at the Local Corps as a condition of their enrollment. High school diploma classes are available through the YouthBuild Charter School of California or post-secondary education institution. Citizenship and Leadership classes are available to YouthBuild Charter School students on a weekly basis and available to all corpsmembers during the summer and winter break annually.

The LCC/YouthBuild Charter School Senate Council provides corpsmembers with the opportunity to participate fully in the development of additional services and programs members may deem important to their experience and growth at the Corps.

Activity:

The YouthBuild Charter School of California (YCSC) continues to provide the high school education component, life skills, and leadership development for LCC.

- August 27, 205 – Nine Corpsmembers completed National Center for Construction Education and Research (NCCER) Constructing Site Safety Orientation.
- September 17, 2025 – Seven corpsmembers completed First Aid/CPR Training.
- September 30, 2025 - Seven out of the nine students placed at Valley Children's Hospital completed their 400-hour internship requirements, of whom three were hired.
- October 9, 2025 - Sixteen corpsmembers completed Human Factors in the Wildland Fire Service training. Training consisted of Introduction to Wildland Fire Behavior, Home Ignition Zone and Defensible Space Concepts, Fuels Reduction Methods and

Techniques, Chipper, Pole Saw and Weed Eater Training, and S-212 Wildland Fire Chainsaw Training and certification.

- November 21, 2025 - Corpsmembers, students, and staff of the Local Conservation Corps and its partner, YouthBuild Charter School of California, were joined by Foster Grandparent program staff at the Golden Corral restaurant for an annual LCC holiday tradition – a brunch to slow down for a few hours and enjoy each other’s company before the start of a busy season. Everyone who attended was treated to their choice of breakfast, lunch, and dessert options. While the all-you-can-eat buffet is a nice perk, what truly makes the tradition special is the opportunity for staff, corpsmembers, and students to step outside their usual roles and interact with each other in a more relaxed way. Ultimately, this tradition is more than just a meal; it’s an investment in morale, fostering bonds and mutual respect to carry into the upcoming year.
- During this quarter, sixteen corpsmembers completed forklift training and received their certification.
- The YouthBuild AmeriCorps (YB/AMC) 23/24 program was allocated an additional ten slots, increasing the total to forty seven reduced half-time education awards. Of the forty seven, thirty earned an education award, while seventeen members did not complete the program due to early withdrawal.
- The YouthBuild AmeriCorps (YB/AMC) 24/25 program has been awarded a total of thirty five slots, with thirty one designated as half-time, two full-time, and two half-time. As of February 3, 2026, there are currently thirty active members, and three have earned an education award.
- August 14, 2025 - Alumni Priscilla Reyes is our Community Partnership Team Leader, YouthBuild full time AmeriCorps Member. Priscilla builds partnerships with non-profit organizations that provide service opportunities that impact the community, member, and program.
- LCC continues to offer Career Prep workshops. The workshops are presented in-house, through LCC staff and partners. Topics include Job Search, Interview Skills, Resume Writing and Mock Interviews.
